

**In the Claims:**

**Please cancel ~~claims 3-7~~ and amend claims 1-2 as follows:**

---

1. (ONCE AMENDED) A workpiece positioning tool comprising:

a generally flat base member for supporting a workpiece thereon, said base member having first and second legs joined at a 90 degree angle, said first and second legs having front edges and back edges, said first and second legs having unobstructed leg ends and unobstructed front edges, a first sidewall connected to said back edge of said base member first leg at a generally right angle to said flat base member,

a second sidewall connected to said back edge of said base member second leg at a generally right angle to said flat base member, said second sidewall having a first end adjacent said first sidewall and an unobstructed second end, and said first sidewall having a first end adjacent said second sidewall, and an unobstructed second end,

→ a void extending upwardly from said base member and between said first and second adjacent ends.

2. (ONCE AMENDED) The workpiece positioning tool as claimed in claim 1 further comprising a plurality of voids in said base member and said first and second sidewalls for securing the tool to a workpiece.

---

Please add the following new claims.

8. (NEW) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 22.5 degree angle.

9. (NEW) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 30 degree angle.

10. (NEW) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 45 degree angle.

11. (NEW) The workpiece positioning tool as claimed in claim 1 wherein said first and second legs of said generally flat base member are joined at a 60 degree angle.
